SOLUTION DYED - COLOUR FASTNESS: 7-8/8 - 100% RECYCLABLE

Alta solidez de los colores a la radiación UV (7/8). Se trata de un tejido fabricado con hilo de polipropileno que ha sido tintado en masa, en su proceso inicial. Esto le otorga una gran resistencia a la luz solar ya que el color queda fijado en el hilo del tejido con mayor intensidad que en otros procesos. Dependiendo del color varía la durabilidad de la intensidad de los colores a la exposición solar.

Certificación UV standard 801 con la puntuación UPF 80, que garantiza la protección de la piel de los efectos nocivos de los rayos UV. Resistente a las manchas - 100% reciclable.

Alta resistência das cores face à radiação UV. Ao ser um tecido fabricado com fio de polipropileno tingido em massa no seu processo inicial, esta característica confere-lhe uma maior resistência à luz solar, que se deve essencialmente ao facto de a cor permanecer fixa ao fio com maior intensidade do que em outros processos de pigmentação. A durabilidade da intensidade das cores, varia dependendo da cor e da exposição solar.

Certificação UV standard 801 com factor de proteção UPF 80, que garante a proteção da pele dos efeitos nocivos dos raios UV. Anti-manchas - 100% reciclável

High resistance of colours to UV radiation (7/8). The fabric is made from polypropylene fabric mass-dyed during the initial process. This provides high resistance to sunlight because the colour is set in the thread of the fabric more intensely than in other processes. Depending on the color, the durability of color intensity varies when exposed to sunlight.

UV standard 801 certification rating UPF 80, that guarantees skin protection against nocive effects of UV rays on the skin. Stain resistance - 100% recyclable.

Haute résistance des couleurs face à la radiation solaire. Il s'agit ici d'une toile fabriquée à partir d'un fil en polypropylène qui a été teinté en masse, depuis son processus initial. Ceci lui confère une haute résistance à la lumière solaire, étant donné que la teinte reste fixée sur le fil avec une plus grande intensité en comparaison avec d'autres processus de pigmentation. Selon la couleur choisie, la durabilité de l'intensité de celle-ci varie en fonction de l'exposition au soleil.

Certification UV standard 801 avec un facteur de protection UPF 80, qui garantie une protection de la peau face aux effets nocifs des rayons UV. Résistant aux tâches - 100% recyclable.

Tejido exclusivamente con fibras acrílicas teñidas en masa desde el núcleo del mismo hilo para garantizar su resistencia a la decoloración frente a los rayos UV. Acabado repelente al agua, resistente al moho y antimanchas que protege el tejido y hace que su mantenimiento sea muy sencillo.

Garantía de 5 años frente a la abrasión, la aparición de bolitas, la decoloración y la pérdida de tensión.

Cuenta con el sello de Recomendación de la Skin Cancer Foundation que garantiza la protección de la piel de los efectos nocivos de los rayos UV.

Tecido exclusivamente com fibras acrílicas tingidas em massa a partir do núcleo do próprio fio para garantir a sua resistência à descoloração contra os raios UV. O acabamento repelente à água, ao mofo e às manchas protege o tecido e facilita a sua manutenção.

5 anos de garantia contra abrasão, borboto, descoloração e perda de tensão.

Com o selo de Recomendação da Skin Cancer Foundation que garante a proteção da pele contra os efeitos nocivos dos raios UV.

The fabric is exclusively crafted from acrylic fibers, dyed thoroughly within the core of the yarn to ensure resistance against UV-induced fading. It is water-repellent, mold-resistant, and stain-repellent finish safeguards the fabric, simplifying maintenance. It is backed by a 5-year warranty against abrasion, pilling, fading, and tension loss.

Endorsed by the Skin Cancer Foundation seal, guaranteeing protection against the harmful effects of UV rays on the skin.

Tissu exclusivament en fibres acríliques teinté à la masse depuis son processus initial, afin de garantir une haute résistance à la décoloration due aux rayons UV. Toile déperlante, résistante aux moisissures, anti-tâches qui facilite ainsi son entretien.

Toile garantie 5 ans, contre l'abrasion, les bouloches, decoloration et pertes de tension.

Certifiée est recommandée par la Skin Cancer Fondation qui garantit la protection de la peau aux effets nocifs des rayons UV.
